PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 10+ years of experience building test automation from the ground up across web, mobile, and enterprise platforms. Currently in a senior engineering role at a fintech company while taking on select consulting engagements to help teams kickstart automation. Deep expertise in Playwright, Selenium, WebdriverIO, and Appium with JavaScript/Java stacks — from framework design to CI/CD integration. Proven track record of cutting regression cycle times by 90%+, scaling coverage to 80%, and leading QA teams through acquisition and platform migration. Actively building AI-augmented QA tooling using Claude and Playwright MCP.

CORE TECHNICAL SKILLS

Automation

Playwright · Selenium WebDriver · WebdriverIO · Appium (Android & iOS) · Cucumber/BDD · Page Object Model · Hybrid/Modular Frameworks

Languages

JavaScript (Node.js) · Java · SQL

API Testing

REST API Automation · Postman · JSON Schema Validation · API Chaining & Auth

CI/CD & DevOps

Jenkins · CircleCI · GitLab CI · GitHub Actions · Git

Platforms

BrowserStack · IBM i (AS/400)

AI for QA

Claude API · Playwright MCP · AI-assisted test generation

Methodologies

Agile/Scrum · Risk-Based Testing · Regression Strategy · TDD/BDD

PROFESSIONAL EXPERIENCE

First Digital Finance Corporation (FDFC) — Remote (Philippines) · Aug 2024 – Present

Senior QA Automation Engineer

- Lead test automation maintenance for the Android automation team using Appium and WebdriverIO.
- Expand automated regression coverage within an existing mobile framework, improving release confidence across Android, web, and iOS.
- Execute regression test suites per release using BrowserStack across multiple device configurations.
- Review and approve merge requests across Android, web, and iOS automation repositories.
- Concurrent: advising 1–2 early-stage projects on automation strategy and framework setup on a part-time basis.

Harver (formerly LaunchPad Recruits) — Remote · Jan 2019 – Aug 2024 (5.5 years)

QA Automation Engineer → Automation Lead

- Built the company's automated regression suite from scratch — ~200 test cases covering ~80% of regression scope.
- Reduced regression cycle time by ~93%: from 2–3 days of manual effort to under 3 hours of automated runs.
- Promoted to Automation Lead, overseeing 1–2 QA engineers, setting automation standards, and leading code reviews.
- Integrated automation into CI/CD pipelines, enabling continuous regression runs before each release.
- Retained post-acquisition to lead migration of LaunchPad's automation suite to Harver's platform.
- Implemented API validations supporting end-to-end scenarios across multiple service integrations.

RightCrowd Software Inc. Pasig, Philippines · Aug 2017 – Dec 2018

Senior Software QA Automation Engineer

- Enhanced Selenium-based automation framework, increasing regression coverage for access management workflows.
- Executed integration and system testing across multiple environments.
- Performed SQL database validation ensuring data integrity across identity and access records.

IBM Solutions Delivery Inc. Quezon City, Philippines · Sep 2011 – Aug 2017 (6 years)

Senior IT Specialist, Test & Development

- Senior contributor on enterprise application delivery projects for IBM's global clients across the full SDLC.
- Developed test cases, technical/functional specifications, and estimates across multiple client engagements.
- Developed automated test suites and contributed to framework design.
- Assumed lead responsibilities on delegation from Project Manager, overseeing quality of team deliverables.

EDUCATION & TRAINING

De La Salle University – Dasmariñas (DLSU-D) 2003

BS Computer Science

Professional Development (IBM Global Business Services)

- DevOps Technical Workshop — August 2016
- LEAN Workshop — March 2015
- Taking the Stage: Women Leadership Seminar — August 2014
